

GifFinder Project - Submission Deliverables

This document lists all key deliverables for the GifFinder project. It includes links to the hosted application, source code repository, and documentation files.

Deliverables

1. **GitHub Repository**

- Link: <https://github.com/tylerfields56/gif-finder>
- Contains full source code: HTML, CSS, JavaScript, and README.

2. **Live Hosted Site (GitHub Pages)**

- Link: <https://tylerfields56.github.io/gif-finder/>
- Provides public access to the GifFinder application.

3. **Project Documentation (PDF)**

- Wireframes and User Stories compiled together.
- File: GifFinder_Project_Documentation.pdf

4. **Additional Notes**

- Ensure GIPHY API key is active and functional.
- Tested on Chrome and Safari browsers.
- Responsive layout confirmed for desktop and mobile.
